POD PRO

95%

Reduction in CO2 Emissions
By removing the need to transport water, we significantly reduce the emissions associated with the distribution and storage of chemicals.

90%

Reduction in Plastic Waste
Our planet friendly packaging is made from compostable materials and our bottles are extremely durable so they can be used time and time again.

75%

Reduction in Cost
Significant cost-in-use savings when compared to ready-made chemicals and the added benefit of dose-control when compared to other super-concentrated solutions.

Our tried-and-tested active formulas, now contained within PVOH film sachets that are dry, compact and light.

A truly zero plastic waste product with all packaging made from biodegradable and compostable materials.

SUSTAINABLE, COST EFFECTIVE CLEANING SOLUTIONS

Aluminium Trigger Bottle 500ml

Refillable trigger spray bottles for use with the Pod Pro system. The premium fine mist spray is free of pressurised gasses and other environmentally harmful substances. The bottle combines sustainability and consistent performance with its refill functionality and premium quality.

CLEANING CHEMICALS CONCENTRATE

EntirePro Dose Super Concentrate Chemicals: a safe and effective janitorial & cleaning chemical super concentrate system that is suitable for any kind of business.

Including all the tools and product required to quickly, easily, accurately and safely dilute super concentrated janitorial and cleaning chemicals on-site. The EntirePro Dose system delivers fantastic cost-in-use savings compared to buying ready-mixed trigger sprays and bottles, simply diluting our super-concentrated formulas with water with the easy controlled dosing system.

The required dosage rates for optimum performance are clearly marked on each product and displayed on the corresponding wall chart affixed to the dispenser station. Simple instructions on dosage thanks to the pre-measured pelican pump tops and pre-labelled refillable trigger spray bottles.

Enviro Clean FOG Drain Management System

Cleans & maintains drains for between 40 and 60 days.

Natural Enzyme Drain Cleaner

Natural bio-enzyme formula breaks down fats, oils and grease that are released into the drains and sewers from commercial kitchens.

Keeps Drains Free From Blockages

Stops FOGs from forming to help keep your drains free from blockages. Ensures compliance with local authority requirements.

Easy Self-Installation

Simple battery-operated system for self-install. No plumbing experience required. Includes all fixtures and fittings, plus instructions!

STEP 1

FOOD WASTE STRAINER

This sink strainer plug insert is a must-have kitchen accessory and is the first step for keeping your sink clear of debris and clogs. The fine mesh design allows for water to flow freely while trapping food particles, hair and other debris to prevent clogs.

ONLY £1.59 EACH
SKU 90037

STEP 2

GREASEPAK

GreasePak offers a CE-certified mains operated module for automatic, biological drain maintenance that complies with FOG removal laws and is classified as 'Hazard Group 1'. It breaks down fat, oil and grease resulting in better water efficiency, a pleasant scent, and reduced risk of infestations in commercial kitchens.

ONLY £408.29 EACH
SKU GP-DMI-STD-2

STEP 3

BIOCEPTOR

BATTERY OPERATED

The BioCeptor FOG Intercept and Treatment (F.I.T) unit and the GreasePak bio-fluid dosing module, is a combined system designed to retain and degrade Fats, Oils and Grease (FOGs) to prevent them from entering your drainage system. The F.I.T unit is highly efficient at capturing FOG, with an average efficiency rating of 95.6%. It uses combines entrapment and retention with the natural process of bioremediation to create a highly effective environment for the permanent degradation of FOG.

Bin Liners Buying Guide

Refuse Sacks: General use bin liners with a wide variety of applications.

Compactor Sacks: Larger bin bags with a deeper gusset, ideal as an outer liner.

Light Duty: High tensile (HT) polythene. Crinkly to touch and lower elasticity.

Heavy Duty: Low density (LD) polythene. 100% recyclable material with smooth and stretchy feet.

CHSA: Bin liners tested to the CHSA specification to ensure they withstand the given weight.
